PROJECT MANAGEMENT ESSENTIALS

PROJECT MANAGEMENT ESSENTIALS – 2 DAYS

Course Summary	Project management is the use of specific knowledge, skills, tools and techniques to deliver something of value to people. This course will expose the participants on the fundamental of Project Management methodology, skills, tools, and technique based on the world Project Management best practices.
Objectives / Learning Outcomes	<ol style="list-style-type: none"> 1. Participants would be able to understand the 10 knowledge areas of PMBOK Methodology and Project life Cycle, from Project Initiation to Project Closure 2. Participants would be able to understand the importance of planning a project. 3. Participants would be able to appreciate the processes involved in the four mandatory processes of Project Management, namely Time Management, Scope Management, Cost Management and Quality Management. 4. Participants would be able to appreciate the processes involved in the five supporting processes of Project Management, namely Integration Management, Risk Management, Communication Management, Resource Management and Procurement Management.
Training Methods	<p>We shall use the Fun-based, Adult experiential training concept while conducting this training. In an adult experiential learning environment, the method must convey the content, keeping the focus, generate interest and excitement throughout the training, allow learning success, by using participants own problems faced in their projects, apply learning on the job and to help participants solve real-world problems rather than a theory and educationist concept of teaching.</p> <p>We provide varieties during the training, which includes quizzes, rewards, critics, group discussions, and variety of mind-stimulating games relevant to the subject being taught. This allows the participants to “experience” the subject, rather than just viewing the powerpoint presentation slides. In addition, participants will be able to relate their learning to their respective work at the end of each subject taught.</p>
Duration	TWO (2) days
Class Hours	9am to 5.00pm Breakfast: 30 mins Lunch: 12:30pm to 2:00 pm Training: 6 hours
Training Facilitator	Nehru Nagappan
Target Participants	<ul style="list-style-type: none"> • Project Managers • Project Executives • Project Team members • Senior Managers Project Mgmt Office / Head of Dept

PROJECT MANAGEMENT ESSENTIALS – 2 DAYS

THE COURSE TENTATIVE AND OUTLINE

Day	Description
Day 1 Session 1 9 am	General Introduction Games: Ice-Breaking Game Participants participate in ice-breaking game that allows them to ‘open-up’ about themselves – more than just names and designations. A good project management is achieved when team members are comfortable with each other, and appreciates each other’s strengths and weaknesses. The ice-breaking game facilitates teamwork among participants, and helps in fostering more openness and idea sharing between team members throughout the training.
